

# CHARTER OAK® ENERGY ELITE:

IT'S NOT JUST SIDING. IT'S ENERGY-EFFICIENT SIDING.

Wouldn't it be nice to reduce energy bills as well as maintenance chores? Charter Oak® Energy Elite is an energy-efficient siding system that combines select materials and refined designs with exceptional energy efficiency.

The inside of your home will be cooler in summer, warmer in winter and quieter year-round because Charter Oak Energy Elite features Fullback®, a precisely contoured insulating foam underlayment that provides all the benefits of our flagship [Charter Oak®](#) premium vinyl siding.

\* See printed warranty for complete details.

## Charter Oak Energy Elite Features :

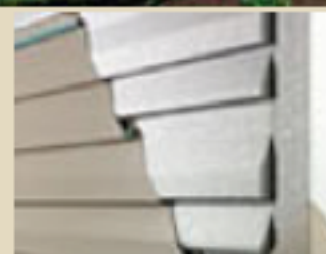

- \* Improved energy efficiency
- \* Five times the impact resistance
- \* Fully supported to resist denting, bowing and bending
- \* 500% more breathable than other insulated systems, for a healthier home
- \* Discourages termites from nesting behind the siding
- \* Lifetime, transferable warranty\*
